

FOR NICO

Anonymous channels are milking **Nico Stojan**'s death for clicks. This page gathers everything needed to report that to YouTube: the three target videos, the reporting routes and six prepared letters – each person reports once, in their own words.

01 · THE TARGET VIDEOS

Report **only** these three

A „Wie ist Nico Stojan gestorben? Der deutsche DJ und Produzent Nico Stojan ist verstorben"

Channel: News Break (@NewsBreak-o5t) · approx. 710 views

<https://youtu.be/avRvM5dMZk8>

B „Nico Stojan ist verstorben: Familie teilt emotionalen Nachruf und herzlichen Abschied"

Channel: NewsRange · approx. 130 views

<https://youtu.be/3y0B4RokmB8>

Of note: The title claims the *family* shared an "emotional obituary". If the family never made any such public statement, that is a fabricated claim about the family itself – and it belongs explicitly in the complaint (see the extra paragraph in Letter 1).

„Todesursache von Nico Stojan | DJ Nico Stojan ist verstorben | Nico Stojan cause of death"

Channel: ジャパン・キング👑 ("Japan King") · approx. 50 views

<https://youtu.be/Z707YiAm4bQ>

Of note: "Cause of death" speculation. If the video makes claims about the cause of death that the family has not confirmed: name that explicitly as well.

DO NOT REPORT - NICO'S LEGACY (REAL CONTENT)

Music and sets on Get Physical, Crosstown Rebels, Suara, Ouïe, Katermukke, Bar 25 Music; live sets (Burning Man/Robot Heart, Fusion, MIXMIX Seoul); and the memorial upload "**Nico Stojan – DJ Set, Bachstelzen Garbicz (Rest In Beats Nico)**" – a respectful tribute from the scene, not grief-bait. These are exactly what should remain of him.

- „Hoe stierf **Rob Dieperink**?..." ([RMKdCV0hW0s](https://www.youtube.com/watch?v=RMKdCV0hW0s))
- „**Sam Neill** dies at 78 ... Sam Neill's Last Video" ([7M73-W1eC1c](https://www.youtube.com/watch?v=7M73-W1eC1c))
- „US Senator **Lindsey Graham** dies at 71..." ([CU4wAUXOP3s](https://www.youtube.com/watch?v=CU4wAUXOP3s))
- Plus titles like "Последние минуты..." (*the last minutes of...*), "Похороны..." (*funeral of...*), "آخر رسالة ... قبل الموت" (*last message before death*), "Pesan Terakhir ... sebelum Meninggal" (*last message before passing*).

IMPORTANT - KEEP THE FACTS CLEAN

Spot checks (Sam Neill † 13 Jul 2026, Lindsey Graham † 12 Jul 2026) are **real deaths**. So the channel is *not* to be accused of inventing deaths. The charge is a different one, and it is enough: **industrial, presumably automated exploitation of real deaths** - within days of each death, no sources, no authorship, no description text, with titles promising "last minutes" and "cause of death" to intercept the searches of the grieving.

Relevant policies (wording for all letters)

- **Harassment:** prohibition of "*content reveling in or mocking the death or serious injury of an identifiable individual*".
- Also prohibited: realistic simulations of deceased individuals describing their own death.
- **Spam & deceptive practices:** mass-produced, templated content.
- **Privacy:** uniquely identifiable person (full name in the title, images), no consent.

GROUND RULES - IMPORTANT, SO THE REPORTS ACTUALLY WORK

1. **Each person reports once, in their own words.** No identical copies, no second accounts, no organised mass-flagging - coordinated identical reports get dismissed as brigading. That is why the letters below are deliberately *different*.
2. **Claim only what is true.** Give timestamps (mm:ss) where Nico appears. Do not claim the deaths are invented.
3. **Report only the three target videos + the channel** - not Nico's music, not the real tributes.
4. The privacy complaint is filed **only by the family member** (she may need to prove the relationship). Everyone else uses the normal report.
5. Do not attack the channel operator in the comments - it weakens the position.

PRIVACY COMPLAINT

GERMAN

Betreff: Beschwerde einer Angehörigen - Video über meinen verstorbenen
[Bruder/Cousin/Onkel ...] / Verletzung der Privatsphäre und Würde eines Verstorbenen

Sehr geehrtes YouTube-Team,

ich bin [Name], [Schwester/Cousine/Nichte ...] von Nico Stojan, der am [Datum]
verstorben ist und in folgendem Video gezeigt und namentlich genannt wird:

Video-URL: <https://youtu.be/avRvM5dMZk8>

Titel: „Wie ist Nico Stojan gestorben? Der deutsche DJ und Produzent

Nico Stojan ist verstorben"

Kanal: „News Break“ (Kanal-ID UCPuNVazdTbXd0gsiZInQaQw)

Hochgeladen: 26.07.2026 – nur wenige Tage nach seinem Tod

Ich reiche diese Beschwerde als enge Angehörige eines Verstorbenen ein.

Nico ist eindeutig identifizierbar: sein voller Name steht im Titel, und das Video zeigt [Fotos/Aufnahmen von ihm, insbesondere bei mm:ss]. Es zeigt ihn [in einem Moment größter Schwäche und seines Leidens – konkret beschreiben, was zu sehen ist]. Weder Nico noch unsere Familie haben der Aufnahme oder Veröffentlichung dieses Materials jemals zugestimmt. Der Kanal steht in keinerlei Verbindung zu ihm und hat unsere Familie nie kontaktiert.

Dies ist keine journalistische Berichterstattung: ein anonymes Kanal, ein Clickbait-Titel in Frageform, der gezielt die Suchanfragen trauernder Menschen abfängt, keine Videobeschreibung, keine Quellen. Derselbe Kanal veröffentlicht ausschließlich solche Todesfall-Videos – dieselbe Titelschablone in über 15 Sprachen, binnen Tagen nach jedem Todesfall. Hier wird der Tod eines Menschen systematisch zu Klick- und Monetarisierungszwecken ausgeschlachtet.

Das Video verstößt gegen:

- die Community-Richtlinien zu Belästigung („Inhalte, die sich am Tod oder schweren Verletzungen einer identifizierbaren Person weiden oder diese verhöhnen“),
- [falls zutreffend: das Verbot realistischer Simulationen Verstorbener, die ihren eigenen Tod beschreiben,]
- die YouTube-Datenschutzrichtlinien (Beschwerde einer engen Angehörigen für einen Verstorbenen).

Jeder Tag, den dieses Video online ist, fügt unserer Familie neues Leid zu und raubt einem geliebten Menschen im Tod seine Würde.

Ich bitte um die Entfernung des Videos sowie um Prüfung des Kanals auf gleichartige Videos über andere Verstorbene. Meine Identität und mein Verwandtschaftsverhältnis weise ich auf Wunsch gerne nach.

Mit freundlichen Grüßen

EXTRA PARAGRAPH FOR VIDEO B (NEWSRANGE, ONLY IF APPLICABLE)

Besonders schwer wiegt: Der Titel behauptet, unsere Familie habe einen „emotionalen Nachruf“ geteilt. Das ist frei erfunden. Unsere Familie hat gegenüber diesem Kanal nie eine Erklärung abgegeben. Hier wird nicht nur Nicos Tod verwertet, sondern unserer trauernden Familie eine öffentliche Äußerung in den Mund gelegt.

Extra sentence for video C (if applicable): „Das Video spekuliert über die Todesursache; die dort aufgestellten Behauptungen sind von unserer Familie weder bestätigt noch autorisiert.“ (The video speculates about the cause of death; the claims it makes have been neither confirmed nor authorised by our family.)

Subject: Complaint by a family member – video exploiting the death of my [brother/cousin/uncle ...] / violation of the privacy and dignity of a deceased person

Dear YouTube Trust & Safety team,

I am [name], the [sister/cousin/niece ...] of Nico Stojan, who passed away on [date] and who is shown and named in the following video:

Video URL: <https://youtu.be/avRvM5dMZk8>

Title: "Wie ist Nico Stojan gestorben? Der deutsche DJ und Produzent Nico Stojan ist verstorben"

Channel: "News Break" (channel ID UCPuNVazdTbXd0gsiZInQaQw)

Uploaded: 26 July 2026 – only days after his death

I am filing this complaint as a close family member of a deceased individual.

Nico is uniquely identifiable: his full name is in the title, and the video shows [photos/footage of him, in particular at mm:ss]. It shows him [in a moment of extreme weakness and suffering – describe precisely what is shown]. Neither Nico nor our family ever consented to this material being recorded or published. The channel has no connection to him and never contacted us.

This is not journalism: an anonymous channel, a clickbait question title designed to intercept the searches of grieving people, no description, no sources. The same channel publishes nothing but death videos – the same title template machine-translated into 15+ languages, within days of each death. A person's death is being exploited systematically for clicks and monetization.

The video violates:

- the Harassment & cyberbullying policy ("content reveling in or mocking the death or serious injury of an identifiable individual"),
- [if applicable: the prohibition of realistic simulations of deceased individuals describing their own death,]
- the YouTube Privacy Guidelines (complaint filed by a close family member on behalf of a deceased person).

Every day this video stays online inflicts fresh pain on our family and strips a beloved person of his dignity in death.

I request removal of this video and a review of the channel for identical videos about other deceased people. I am happy to verify my identity and my relationship to Nico on request.

Kind regards,

[name] · [relationship] · [email address]

Betreff: Meldung – Video weidet sich am Tod von Nico Stojan

Sehr geehrtes YouTube-Team,

<https://youtu.be/avRvM5dMZk8> („News Break“)

Ich habe diesen Menschen geliebt und kenne ihn wie wenige andere. Ich weiß, dass er niemals eingewilligt hätte, dass [Bilder/Aufnahmen aus seinen schwächsten Momenten] von einem anonymen Kanal zu Klickzwecken verwertet werden – und niemand hat ihn oder seine Familie je gefragt.

Der Kanal hat keinerlei Beziehung zu Nico. Er nennt keine Quellen und keine Autoren, das Video hat nicht einmal eine Beschreibung. Es wurde binnen weniger Tage nach Nicos Tod mit einem Clickbait-Titel („Wie ist Nico Stojan gestorben?“) hochgeladen – so, wie dieser Kanal es Woche für Woche mit Dutzenden Verstorbenen in über 15 Sprachen tut. Das ist keine Berichterstattung. Das ist ein Geschäftsmodell aus dem Leid Hinterbliebener.

Die Community-Richtlinien verbieten Inhalte, „die sich am Tod oder schweren Verletzungen einer identifizierbaren Person weiden“. Genau das geschieht hier, mit vollem Namen im Titel.

Nicos Familie hat zusätzlich eine Datenschutzbeschwerde als Angehörige eingereicht. Ich bitte Sie, dieses Video zu entfernen und den Kanal zu prüfen.

Mit freundlichen Grüßen

▼ LETTER 4 **Colleague from the music scene**

REPORT VIDEO → HARASSMENT

Route: report video → "Harassment and bullying". Voice of the scene: contrast with real tributes.

LETTER

Subject: Report – video exploiting the death of DJ Nico Stojan

Dear YouTube Trust & Safety team,

I am a [DJ / producer / promoter / booker] and knew Nico Stojan through the Berlin electronic music scene, where he was a respected and much-loved artist for some two decades – Bar 25, Katermukke, Ouïe, Robot Heart.

Since his death on [date], his community has honoured him the way artists are honoured: labels re-sharing his music, friends uploading memorial sets in his name. Those tributes carry his legacy, and none of us would ever report them.

This is different:

<https://youtu.be/avRvM5dMzk8>

An anonymous channel with no connection whatsoever to Nico uploaded a "Wie ist Nico Stojan gestorben?" ("How did Nico Stojan die?") video within days of his death – no sources, no author, not even a description. The same channel uploads nothing but templated death videos about deceased people worldwide, the identical title format machine-translated into 15+ languages, often promising "last minutes" or "cause of death". This is not news coverage and not tribute – it is monetized grief-bait aimed at people searching for a person they just lost.

Your harassment policy prohibits "content reveling in or mocking the death or serious injury of an identifiable individual". Nico is identified by full name and image, without any consent from him or his family (who have filed their own privacy complaint).

Please remove this video and review the channel as a whole.

Kind regards,
[name]

SHORT VERSION FOR THE REPORT BOX

Grief-bait video about the late Berlin DJ Nico Stojan: anonymous channel with no connection to him, clickbait "how did he die" title days after his death, no sources or description. The channel mass-produces identical death videos in 15+ languages. Violates the harassment policy ("content reveling in the death of an identifiable individual"). His family has filed a privacy complaint; real tributes from his scene exist and are not affected.

REPORT VIDEO → HARASSMENT

Route: report video → "Harassment and bullying". The credibility of this one comes from its restraint.

LETTER

Subject: Report - templated grief-bait, not reporting: Nico Stojan video

Dear YouTube team,

I want to be upfront: I almost never report content, and I believe firmly in free expression. Reporting on a person's death - even bluntly, even tastelessly - is legitimate speech. I am NOT asking you to remove news coverage of Nico Stojan's passing, and if this video were actual journalism, I would not be writing.

It is not. This is an anonymous channel that uploads nothing but death videos - the same "How did X die?" title template, machine-translated into 15+ languages, published within days of each death, with no sources, no authorship, and no description. Among its recent uploads are videos promising the "last minutes" and "cause of death" of dozens of deceased people. The Nico Stojan video names an identifiable private individual in the title and shows his image [including at mm:ss] without any consent from him or his grieving family.

<https://youtu.be/avRvM5dMZk8>

Free speech protects reporting, commentary, even bad taste. It does not protect an automated content farm monetizing the moment of a family's bereavement. Your own harassment policy draws exactly this line: "content reveling in or mocking the death or serious injury of an identifiable individual" is not allowed.

I ask you to review this video against that policy, and to look at the channel's upload pattern as a whole.

Kind regards,
[name]

SHORT VERSION FOR THE REPORT BOX

I rarely report and I support free expression - but this is not reporting. An anonymous channel uploads only templated "How did X die?" death videos in 15+ languages, days after each death, no sources or description. This one names and shows the late Nico Stojan without any consent from his family. "Content reveling in the death of an identifiable individual" violates the harassment policy. Please also review the channel's pattern.

Route: channel page → About → 🚩 "Report user" (choose harassment/spam; paste what fits). Anyone can send this one – it targets the pattern, not one video.

LETTER

Subject: Channel report – industrial-scale exploitation of deaths
(@NewsBreak-o5t / channel ID UCPuNVazdTbXd0gsiZInQaQw)

Dear YouTube Trust & Safety team,

I am reporting this channel as a whole, not a single video.

A review of its 40 most recent uploads (as of 31 July 2026) shows that every single one is a death video about a recently deceased, identifiable person, produced from the same title template and machine-translated across 15+ languages, e.g.:

- "Wie ist Nico Stojan gestorben?..." (German, avRvM5dMZk8)
- "Wie kam es zu Gunther von Hagens?..." (German, ICJMUcEd5WU)
- "Jak Milan Knížák zemřel?..." (Czech, -wFsg6f3ly0)
- "¿Cómo murió Alenir Echeverría?..." (Spanish, 8f1Hq3TCQaE)
- "Come è morto Osvaldo Bagnoli?..." (Italian, YsGsE7hVwoM)
- "Hogyan halt meg Szolnoki Péter?..." (Hungarian, 3Sdbfd0We50)
- "Hoe stierf Rob Dieperink?..." (Dutch, RMKdCV0hW0s)
- "Как умер Георгий Тандашвили?..." (Russian, LIBieQZ4MWO)
- "Sam Neill dies at 78 ... Sam Neill's Last Video" (English, 7M73-W1eC1c)
- "US Senator Lindsey Graham dies at 71..." (English, CU4wAUX0P3s)

Further titles promise the "last minutes", "last message before death" or funeral footage of the deceased ("Последние минуты...", "Похороны...", "آخر رسالة ... قبل الموت", "Pesan Terakhir...").

To be precise: the deaths themselves appear to be real. The problem is not misinformation – it is that this channel does nothing but monetize deaths at industrial, apparently automated scale: uploads within days of each death, clickbait question titles engineered to capture the searches of grieving people, empty descriptions, no sources, no authorship, no connection to any of the deceased or their families.

This constitutes a systematic, repeated violation of:

- the Harassment & cyberbullying policy: "content reveling in or mocking the death or serious injury of an identifiable individual" – here, dozens of identifiable individuals, named in titles, shown in footage, without consent;
- the Spam & deceptive practices policies: mass-produced, templated, auto-generated content.

At least one affected family (of the Berlin DJ Nico Stojan, † [date]) has filed a privacy complaint as close relatives regarding avRvM5dMZk8.

Individual takedowns cannot address a channel whose entire output is this pattern. I ask you to review the channel itself.

Kind regards,
[name]

SHORT VERSION FOR THE REPORT BOX

Entire channel is a death-content farm: all 40 recent uploads are templated "How did X die?" videos about recently deceased identifiable people, machine-translated into 15+ languages, uploaded days after each death, no sources/descriptions, titles promising "last minutes" and funerals. Systematic violation of the harassment policy (reveling in the death of identifiable individuals) and spam policies (mass-produced content). One family (Nico Stojan) has filed a privacy complaint re: avRvM5dMZk8.

05 · ORDER & PRACTICE

How it runs

1. **Family:** privacy complaint for video A (then B, C - one complaint per URL; use the extra paragraph for B). Keep proof of the family relationship at hand.
2. **Everyone else:** report video A once (harassment); whoever wants also reports B and C - own words each time / the matching letter as a base.
3. **One person** (that is enough) sends the channel report (Letter 6).
4. **Add timestamps:** someone has to note once at which mm:ss Nico appears - someone less close than the family can take that on, for whom watching is less painful.
5. Wait for YouTube's answer (privacy route: the uploader usually first gets the chance to delete it themselves, then review). **If rejected:** legal route via Google's legal form with § 22 s. 3 KunstUrhG (right to one's own image, 10 years post-mortem, exercised by the family).
