

TITIS ON DECKS

Different sounds. Different characters. One shared frequency.

WHO WE ARE

TiTiS on Decks is a female DJ collective by **Lutzi** and **Glitta**. Sometimes the most meaningful collaborations are born from unexpected places: what brought the two closer together was loss. Out of friendship, a shared passion, and countless hours behind the decks, a vision slowly began to take shape.

On stage, our energy couldn't be more different - and that's exactly where the magic happens. The Mediterranean Sea meets the Atlantic Ocean. Acid Techno Fraggles meet Afterhour Marathon Fraggles. The synergy is pure power.

"Why are so many outstanding female DJs never playing on the same lineup?"

Around six years ago that question sparked an idea, and became **Ladies Night at FridayHappiness** in Tojeiro. As the events grew, the DJs kept telling us how much they valued the atmosphere behind the decks - support instead of competition. What began as a single event is now an independent collective, built on outstanding music, mutual respect and genuine connection.
